

The nation's guarantors provide the following summary to inform schools, lenders, and servicers of the latest *Common Manual* policy changes. These changes will appear in the manual's next annual update. These changes will also be incorporated into the *Integrated Common Manual* released in July 2015. The *Integrated Common Manual* is available on several guarantor websites, and it is also available on the *Common Manual's* website at www.commonmanual.org. Please carefully note the effective date of each policy change.

Three-Year Cohort Default Rates

The *Common Manual* has been updated to remove information pertaining to the two-year cohort default rate (CDR) and the transition to a three-year rate. Revised policy:

- Clarifies that, as part of a school's administrative capability standards, the school's CDR must be less than 30% for two of the three most recent fiscal years and must not exceed 15% for Perkins Loans. A school with a single-year CDR of 30% or greater will be required to establish a default prevention task force. A school with CDRs of 30% or greater for two consecutive years must revise its default prevention plan to implement additional default aversion measures, and could also be subject to provisional certification.
- Provides that, beginning in 2014 with the publication of the fiscal year 2011 three-year CDR, a school may raise a Participation Rate Index (PRI) challenge if its three-year CDR equals or exceeds 30% for the three most recent fiscal years for which rates have been calculated and the school's PRI for any of those fiscal years is less than or equal to 0.0625.
- Deletes obsolete CDR exemptions for Historically Black Colleges and Universities (HBCUs), tribally controlled community colleges, and Navajo community colleges.
- Deletes obsolete language which provided that the definition of default also includes student borrowers with FDLP loans from proprietary non-degree granting schools that are in repayment for at least 360 days under the income-contingent repayment plan with scheduled payments that are less than \$15 per month and less than the interest accruing on the loan.
